Q7 Series – 4K ULED™ Android TV

Model #65Q7809

Model: 65Q7809

4K ULED™ Quantum Dot TV

THE ULTIMATE UPGRADE

If you're looking for the most natural image with rich, vivid colours to match, you're looking at the Hisense Q7 with Quantum Dot technology. At the heart of the Q7 are Hisense's exclusive ULED technologies. These work together to create backlight control, and picture quality enhancing and tuning algorithms to boost colour, contrast, brightness and motion. ULED is built to create the Ultra viewing experience with sophisticated processes that fine-tune multiple areas of picture quality to achieve the best performance.

THE WONDER IS REAL

Quantum Dot is a feat of engineering that inspires even greater leaps of imagination. This technology further enriches over a billion colours and maximizes colour accuracy. On the Q7, oceans sparkle bluer; fiery reds burn hotter; and the grass is always greener. And all those colours in between? Well, they appear even more true-to-life. How's that for awe-inspiring?

ULED TV

ULTRA INCREDIBLE

Take your TV experience from great to incredible. The picture quality of the Q7 is driven by our exclusive ULED technologies, which drive the picture quality enhancing algorithms to boost colour, contrast, brightness and motion. All are calibrated to work together in perfect harmony—to upgrade the performance of every pixel and create a picture that transforms your favourite entertainment into your Ultra-new reality.

LIGHTS OUT PERFORMANCE

The more you can control, the better. See which areas of the screen are brighter and which are darker with more Local Dimming zones. What could be better than a TV that offers you increased contrast and colour accuracy? That was just one of the many bright ideas we had when we created the Q7.

androidtv

TV YOUR WAY

With Android TV, you can enjoy the best Android has to offer on the biggest screen in your home. Stream more than 500,000 shows and movies, and access popular apps like Netflix, YouTube and many more. Watch live sports and news on popular channels. Or gather around to watch the hottest videos from YouTube or 1,000+ Chromecast- capable apps.
