4K ULED™ Quantum Dot

Android TV

THE ULTRA TV

If you're looking for the most natural image with rich, vivid colours to match, you're looking at the Hisense Q9 with Quantum Dot technology and Wide Colour Gamut. At the heart of the Q9 is Hisense's exclusive ULED technologies, including our Hi-View chipset. These all work together to create backlight control, and picture quality enhancing and tuning algorithms to boost colour, contrast, brightness and motion. ULED is built to create the Ultra viewing experience with sophisticated processes that fine-tune multiple areas of picture quality to achieve the best performance.

THE WONDER IS REAL

Quantum Dot is a feat of engineering that inspires even greater leaps of imagination. By maximizing colour accuracy, this technology further enriches over a billion colours unleashed by our Wide Colour Gamut feature. On the Q9, oceans sparkle bluer; fiery reds burn hotter; and the grass is always greener. And all those colours in between? Well, they appear even realer. How's that for awe-inspiring?

MOTION RATE – MR480

Blinked and you missed it? Think again. With a 120Hz native panel, the Q9 is built with motion in mind. Motion Rate image processing makes it so you can keep your eye on the ball, chase scene, or multi-player battle. Gamers see lag times drop and viewers see all the key moments in live sports or action movies. Captivating scenes grab your attention – and keep it with smooth motion.

ULTRA INCREDIBLE

Take your TV experience from great to incredible. The picture quality of the Q9 is driven by our exclusive ULED technologies, including the Hi-View chip which drives the picture quality enhancing algorithms to boost colour, contrast, brightness and motion. All are calibrated to work together in perfect harmony—to upgrade the performance of every pixel and create a picture that transforms your favourite entertainment into your Ultra-new reality.

TV YOUR WAY

With Android TV, you can enjoy the best Android has to offer on the biggest screen in your home. Stream more than 500,000 shows and movies, and access popular apps like Netflix, YouTube and many more. Watch live sports and news on popular channels. Or gather around to watch the hottest videos from YouTube or 1,000+ Chromecast-capable apps.
