VIDAA Series 4K UHD

Model 55H77G

VIDAA

With four times more pixels (8.3 million) than standard high-definition TV's, the Hisense H77G series is built to deliver bright colours and rich contrast in a slim-bezel frame. Dolby Vision HDR* technology maximizes brightness, the UHD Upscaler brings lower resolution content as close to 4K as possible, and Motion Rate 120 keeps up with the fastest sports, movies and 4K gaming. This series also comes with tons of built-in apps via the Hisense Smart Platform (VIDAA OS), making it easier than ever to personalize your entertainment experience. Wirelessly connect a soundbar or headphones to enhance your audio experience with Bluetooth Audio.

Blinked and you missed it? Think again. The H77G is built with motion in mind. Motion Rate image processing makes it so you can keep your eye on the ball, chase scene, or multi-player battle. Gamers see lag times drop and viewers see all the key moments in live sports or action movies. Captivating scenes grab your attention – and keep it with smooth motion.

VIDAA

VIDAA is a fast and simple smart OS that loads quickly and allows you access to some of your favourite apps like Netflix, Amazon Prime Video, Tubi or Facebook Watch.

Dolby Vision™ & HDR10 are cinema-inspired technology that add ultra vivid imaging, brightness, contrast, colour and detail that brings entertainment to life right before your eyes. The Hisense H77G Series TV transforms your viewing experience by combining these two technologies with impressive 4K picture quality.

Technology is a versatile advanced post-processing package that creates an immersive audio experience that includes psychoacoustic bass enhancements and multichannel virtual surround sound. Experience more lifelike, multidimensional audio on your Hisense 55H77G.

TECHNICAL SPECIFICATIONS

DISPLAY	ACCESSORIES
54.6" diagonal	Remote Control
4K Ultra UHD	Batteries x 2
Full Array Backlight	Power cord
VIDAA OS	
8ms Response Time	POWER
Viewing Angle H/V (178/178)	Power Supply AC 120V, 50/60Hz
