H9908 Series 4K ULED™ SMARTTV

Model #65H9908

I'm incredibly talented

With exclusive ULED™ technology that produces the very best in image quality, the Hisense H9908 is designed to impress. Equipped with Wide Colour Gamut, Dolby Vision™ and HDR10*, the Hisense H9908 combines the power of a broad colour spectrum and super-sharp contrast to produce the most lifelike images.

A native 120 Hz. panel paired with special motion rate software means no more straining to keep up with fast-moving scenes. The built-in Google Assistant syncs seamlessly with your Google Home while helping personalize your entertainment with a huge suite of compatible apps. Adding in a new "bezel-less" design and a UHD Upscaler, the Hisense H9908 can make the most of your media — and look great doing it.

ULED 4K TV

Our patented ULED™ technology makes images stunningly vibrant and lifelike through an exclusive combination of colour, contrast, resolution and smooth motion. The Hisense H9908 features Wide Colour Gamut, a UHD Upscaler, Ultra Motion Rate and HDR to offer you the absolute best in picture quality.

Wide Colour Gamut

Wide Colour Gamut technology expands the number of colours that the Hisense H9908 can display, delivering a picture that feels real. Our technology produces true-to-life details by displaying billions of colours, keeping you captivated in everything you watch from start to finish.

HDR

Compatible with both Dolby Vision™ and High Dynamic Range (HDR10*), the Hisense H9908 delivers the very best in colour accuracy and contrast. With enhancements to the darkest and lightest areas of the picture, HDR delivers an image that looks closer to life.

Bezel-less Design

Now this is neat: Our Hisense H9908 has a "bezel-less" design that's sure to be as much of a conversation piece as the picture. With a slim profile and razor-thin frame, images on the H9908 appear edge to edge, keeping you riveted by your favourite movies, sports and games.

4K Resolution/UHD Upscaler

With over 8 million pixels, the Hisense H9908 offers a clearer, more defined picture when compared to Full HD. Breathe new life into older videos thanks to our UHD Upscaler which converts lower resolution content into stunning near 4K. Get ready to experience your favourite movies and shows in a whole new way.

Android TV

Customize your entertainment with a familiar friend. The Android TV operating system gives you access to the most apps, content and entertainment while the Hisense H9908 one-touch remote provides fast access to your favourite movies and shows at the touch of a button.

Google Assistant

The Hisense H9908 is instantly compatible with Google Home and comes with Google Assistant built into the TV, so it's always ready to answer questions, make recommendations and perform actions via web services. Just tap the voice control button to start controlling your display—play, pause or turn up the volume.

Local Dimming

The Hisense H9808 features local dimming zones in the back panel of the TV, producing a better picture by heightening the image contrast. By creating super-detailed contrast, our local dimming technology offers a very realistic, very accurate and very pretty picture.
