H8 Series 4K UHD SMART TV

Model # 50H8107

I'm a work of art

With premium technology that produces colourful and smooth images – HDR compatible technology displays a more vibrant picture that will sure leave an impression. The H8 Series 4K UHD Smart TV comes with plenty of tech that offers features like a UHD Upscaler to convert lower resolution content to near 4K UHD quality and offers award-winning sound integrated with dbx-tv® technology. Popular built-in apps to personalize your entertainment, and multiple ports to connect your favourite devices for your complete home entertainment theatre you've always dreamed of.

4K resolution and HDR-Compatible

Loads and loads of pixels—we're talking 8 million—of 4K UHD (3840 x 2160p) resolution. Add that to an HDR-Compatible standard and you get a more vibrant picture full of images that have greater depth and feel so real that you want to reach out and touch them. Thanks to all of this tech, you get a brighter, clearer, more vibrant picture.

Bluetooth

Along with our many inputs available for your devices, we've included Bluetooth capabilities to connect wireless devices such as an audio headphone.

Award-winning audio technology

Let the rich sound integrated by dbx-tv® Award-Winning Audio Technology, carry you away. You'll hear every detail in the background of your favourite movie and experience it differently.

Local Dimming

Local Dimming dims certain areas of the screen that needs it, while keeping the bright parts of the screen bright- this technology can really improve the contrast ratio to make a better image and a vital feature that goes hand in hand with HDR – compatible.
